SUMMARY

Computer Engineering student at the University of Illinois Chicago with a 3.8 GPA, focused on building practical engineering solutions across software, data, and system-level design. Experienced in developing real-world applications and applying machine learning fundamentals through rigorous coursework and independent projects, and actively seeking impactful internship opportunities.

PROFESSIONAL EXPERIENCE

LivingWell Clinic PLLC, Front Desk & Technology Assistant

08/2025 – Present | Bloomington, IL

- Troubleshoot and resolve computer, printer, networking, and software issues to support daily clinic operations.
- Maintain office technology systems and provide technical support to staff as needed.
- Check in patients, verify information, and manage appointment scheduling through clinic management software.
- Assist with electronic record management, data entry, and administrative workflow optimization.
- Coordinate front-desk operations, handling patient inquiries and ensuring efficient appointment flow.
- Support clinic staff by identifying and solving operational and technology-related challenges.

EDUCATION

Electrical & Computer Engineering, University of Illinois At Chicago

08/2023 – Present | Chicago, IL

- Current GPA: 3.8
- Relevant Courses: Data Structures, Embedded Systems, Circuit Analysis & Discrete and Continuous Signals and Systems

SKILLS

Hard Skills

Programming Languages:

Python, C, C++, Matlab, Assembly

Learning & Data Analysis:

NumPy, Pandas

Tools & Platforms:

VS Code, MATLAB Simulink,

LTSpice, CI/CD pipelines

Data & Visualization:

Matplotlib, Tableau, Excel (advanced

functions, pivot tables)

Soft Skills

- Problem Solving
- Analytical Thinking
- Critical Thinking
- Team Collaboration
- Communication
- Adaptability
- Time Management
- Attention To Detail
- Decision Making
- Organization
- Technical Documentation

LANGUAGES

- English
- Gujarati
- Hindi
- Spanish

PROJECTS

Stock Market Tracker | Machine Learning, Web Development, Skill: Machine Learning

- Developed a dynamic web application using JavaScript, HTML, and CSS to display real-time stock prices and financial data
- Implemented asynchronous programming techniques for smooth data retrieval and UI updates
- Used VS Code for development and Git/GitHub for version control and collaboration
- Laid groundwork for integrating machine learning-based insights into financial data analysis.

ORGANIZATIONS

Society of Women Engineers (SWE), Active Member

08/2025 – Present | Chicago, IL

- Active member engaging in career development, leadership, and outreach programs.
- Building a professional network through technical workshops and contributing to initiatives promoting diversity and inclusion in STEM.

BAPS Charities, Volunteer

06/2017 – Present | Bartlett, IL

- Volunteered consistently in community events and humanitarian efforts, supporting initiatives across education, health, and environmental protection.
- Contributed to local community events and fundraising efforts, fostering stronger community engagement through long-term volunteer involvement.
